Question: What is the model shown in the first row of the table?
Image Type: Table
Reasoning Type: Location
Target Paper: GWLAN: General Word-Level AutocompletioN for Computer-Aided Translation

Model	#Parameters	zh-en	en-zh	en-de	de-en
GWLAN	105M	51.11	48.90	40.69	53.87
HW-TSC	526M	59.40	-	63.82	62.06
AIOE	80M	54.13	52.88	39.43	56.40
AIOE-BPE	74M	57.17	52.97	56.83	61.62
AIOE-Joint	80M(105M)	59.75	56.59	44.67	62.77
AIOE-BPE-Joint	74M(100M)	**61.08**	**58.09**	**64.59**	**66.91**

Claude-3-Haiku Response: The model shown in the first row of the table is GWLAN.

Target Paper Ranking: 7

Error Analysis: Although Claude-3-Haiku successfully recognizes that the model corresponding to the first row of the table is GWLAN, it does not retrieve the correct paper. Hence, its reasoning is correct, but it achieves a suboptimal ranking, since the true reference paper is ranked seventh in its ranking list.

Category: Correct **reasoning,** Suboptimal **ranking**
