Potential Shortcut

Comment:

The coreference of Adventure Capital circled in white in the left slide, *i.e., the company which Mammon Hamid is affiliated with*, makes no sense for answering this question. It is because that the words circled in blue in the right slide, *i.e., invest $1M in the seed*, is a potentially a strong shortcut for answering this question. Though seemingly relying on the information across two pages, it is still likely a single-page question.

Revised Question:
